

APS definition Landscape/Seascape

Landscape/Seascape

A landscape is a photograph of natural scenery with land and sky based elements displayed in a pictorial fashion. It may include evidence of man, people, animals, even part of the sea provided that none of these additional elements dominate the photograph. A seascape is a photograph of natural coastal scenery, a wave study, or a picture of the open sea, provided always that the sea is the centre of interest of the photograph. People, boats and man-made structures may be present as incidental to the photograph.
