

GCC Spring Camp
Hamilton
20 to 22 Nov 26

As suggested by the Committee, this Spring Camp will be held on the weekend 20-22 November 26 in Hamilton, an easy drive out from Geelong along the Hamilton Highway, approx 2.5 to 3 hours.

Accommodation options have been assessed, and it is recommended that **Lake Hamiltion (G'day Park) Motor Village & Caravan Park ((03) 5572 3855)** is the most suitable - unfortunately they do not hold block accommodation; however, at this time they have plenty of space – ***book early to avoid disappointment***.

Photographic locations and challenges:

- **Birds and Nature** - Within town is the Hamiltion Botanic Gardens, Lake Hamilton and other wetlands. Other options include the Dunkeld Arboretum (approx 20 min from Hamilton)
- **Landscape** – Nigretta and Wannon Falls, both are a short drive from town, plus Mt Sturgeon and the Southern Grampians.

- **Astro Photography** – Larry Devenish will be the lead for this activity – he will advise date, time and location.
- Additionally, we suggest that you might like to drop into the 'Information Centre' to get maps, and or information on other great location. One activity that would be out of left field is 'Speedway' on Saturday evening.

Social Activities and Communication:

Please let Judy know that you are coming on the Camp so that she can add you to the 'WhatsApp' group. The main purpose of this comms group is to assist in linking Club members up to share outings/experiences etc. Further, it will enable us to update members of any social activities - eg a casual BBQ on the Friday night in the Caravan Park Function room and an all-in meal at the 'Alexandra House Sports Club' – nothing formal arranged at this time.

More details will be available in the Club rooms - If you have any questions just contact us.

Kind Regards,

Bob and Judy
